

## **iOpener Scoops Mansell ‘Supply Chain Partner of the Year Award’**

Mansell Central Support Services have awarded iOpener the prestigious Mansell Supply Chain Partner of the Year Award for 2009.

The award is one of six presented annually recognising quality performance delivered by key strategic partners of Mansell. iOpener have helped develop their behavioural safety program; ‘Make Safety Personal’.

The Make Safety Personal program equips everyone in Mansell and their supply chain with practical skills to help keep everyone safe on site. iOpener supported Mansell in the development of the programme including the training of circa 135 Mansell employees to cascade ‘Make Safety Personal’ throughout the organization.

Make Safety Personal is a prime ingredient in achieving Zero Harm by 2012. Balfour Beatty, Mansell’s parent company, launched the Zero Harm program in 2008 and Mansell has embraced this approach refusing to accept that accidents are inevitable in construction. Mansell’s target is to achieve Zero Harm across the company by 2012.

Janice McCann, Safety, Health, Environment & Quality Director (SHEQ), at Mansell commented, “In giving this award to iOpener, we are recognizing the value of their fundamental contribution to our Make Safety Personal program. Sharing our commitment and working in close partnership with us has ensured the program’s success.”

Julia Lindsay, Managing Director of iOpener added, “We are delighted to have been given this award in recognition of our work on such an important and far reaching change program. We are proud to be partnering with Mansell on this ground-breaking initiative.”

**Notes to Editors:**

**About iOpener:**

iOpener is a consultancy based in Oxford that enables people to improve their performance and organizations to develop sustainably. iOpener specialises in enabling organisations, teams and individuals to deliver on their objectives and strategy and increase happiness levels in the workplace through research-based leadership development, coaching, and consultancy services.
